Fall is here. Fall is there. Leaves are fall - ling ev' - ry - where.

B

Red ones, yellow ones, orange ones, brown ones.

Great, big humon - gous ones, and little ones, too!

This is a fairly easy entry into the world of ABA form. (Yes, it's perfectly OK to have some cut-out or actual leaves of the corresponding colors to help the children remember the sequence.)

If you're not using barred instruments, just stay on a D chord on your guitar.
(If you're going to accompany at the piano, please be nice and light about it.)
