## Movement

- In small groups, decide whether your circle will first move CW or CCW. (mm 1 & 2)
- Reverse the direction for mm 3 & 4.
- Now place the appropriate arm and hand into the middle of the circle to resemble spokes of a wheel.
- For the final 2 measures, decide which direction your wheel will turn.
- The text is different in mm 5 & 6, so our movement will be, too. Each group will create their own movement to accompany this part of the song.
- Put it all together, baby!!!!!!
