Form: Keep it classic with the uber-symmetrical ABA. Or go crazy and create additional contrasting sections for your very own rondo.

Unpitched: Get those sticks (and drums and cabasas and guiros, etc.) ready. In small groups, let students decide what instruments to perform the B section on. The groups may play the rhythm of the words on 1 instrument; maybe 2. Or they may decide to play a different instrument for each line of the text. Allow time for groups to perform for one another.
